NORSIG 2004

6th NORDIC SIGNAL PROCESSING SYMPOSIUM

June 9 - 11, 2004
Meripuisto, Espoo, Finland

*** EXTENDED DEADLINE: MARCH 10, 2004 ***

Call for Papers

Prospective authors are invited to submit papers describing original research to the 6th Nordic Signal Processing Symposium (NORSIG 2004). NORSIG 2004 will present all aspects of theory, design, and applications of signal processing. The aim of NORSIG 2004 is once again to act as a venue for a thorough presentation of the state of art of the signal processing science in the Nordic countries. Authors from outside the Nordic countries are also warmly invited to submit papers. Papers are invited for technical sessions on, but not limited to, the following topics:

- Adaptive Signal Processing
- Communications Signal Processing
- DSP Education
- Fast DSP Algorithms
- Fuzzy Methods and Genetic Algorithms
- Genomic Signal Processing
- Image and Multidimensional Signal Processing
- Linear Filter Design and Structures
- Medical Image and Signal Processing
- Multimedia and Virtual Reality
- Neural Networks for Signal Processing
- Nonlinear Signal Processing
- Speech and Audio Signal Processing
- Statistical Signal Processing
- VLSI for Signal Processing
- Wavelets and Filter Banks

Accepted papers will be published on a CD-ROM Proceedings of NORSIG 2004 that will be available at the symposium, and also on the Internet.
